

When it was time for use to choose a builder for our "dream home" project we really didn't know where to begin looking. We had heard so many horror stories of people having bad experiences that we were pretty nervous. This house was going to be a huge investment for us and the home that we wanted to start raising a family in. After asking around (a lot) and speaking with many trusted friends in the community one name kept being mentioned....Richard Edgywith Edgy Homes. Everyone had such good things to say about Richard and not only praised his work but also him as a person. After meeting with Richard and showing him our plans we felt instantly at ease. He was not only extremely knowledgeable but also super easy to work with. Everything was very clearly explained and he held our hand throughout the entire project. I have told many people since that it was almost as he was building the house for himself, he took such care with every single detail. To say we love our dream house is an understatement....we honestly couldn't be happier with it and our decision to hire Richard.

-Ps I still pinch myself when we drive up to the house sometimes. I still can't believe we get to live somewhere as nice as this. The house has held up beautifully (even with a toddler and 2 dogs). I can't thank you enough for such a great job!!!
